Reading the measures

EBITDA is reported earnings before interest, tax, depreciation and amortisation. Net debt / EBITDA is the supplied leverage measure. The dividend payout is the reported dividend as a share of earnings per share. Reconciliations and a dividend payment timetable are not available in the profile.

Reporting basis

All figures are fictional project data, reproduced from the supplied profile. Rounded naira amounts use the profile conversion assumption of ₦1,500 = US$1. No live market information, full financial statements or independent audit opinion is included.
